# Pre-Evaluation Form

In order to evaluate your condition fully, please be as accurate as possible. Thank you.

Name: \_\_\_\_\_ Age: \_\_\_\_\_ Gender: M F

Occupation: \_\_\_\_\_ Are you working? Y N

1	In your understanding, what do you think will make your problem better?		
2	How optimistic are you that you will get better? (circle one)	Not at all.....Mildly optimistic.....Fairly..... Very optimistic.....Extremely	
3	What are some potential obstacles to you getting better?		
4	Over the next 30 days, how many hours per week will you commit to getting better?		
5	Known family medical history (cancer, diabetes, high blood pressure, etc.)?	Mother-  Father-  Siblings-	

Total:

I understand that my candidacy for a rehabilitation program will be dependent upon my ability and willingness to improve. I have answered the questions above honestly and accurately to the best of my ability. The doctor/therapist will determine whether or not I am a viable candidate for a rehabilitation program and my approval into their program is not guaranteed.

# Informed Consent, Medical Release, and Policies Agreement

## Medical Necessity

All treatments must be justified and medically necessary in order for us to treat and bill your insurance. Some of the factors that determine whether or not treatment is medically necessary are:

- 1) Does your condition interfere with the quality of your life?
- 2) Does your condition interfere with your ability to perform work or daily activities?
- 3) Are you motivated and able to participate in your treatment program and follow home and self-care instruction?
- 4) Is there potential for your condition to improve and/or resolve? If not, is there potential for your function or ability to perform daily activities to improve through modified movement, assistive devices, etc.?
- 5) Are there specific goals set that are measureable and track-able?

If the above criteria are not met, you are welcome to participate in our elective services (e.g., fitness & exercise training program, Weight Loss Program, Posture Program, etc.) which are payable out-of-pocket by cash, check or credit card.

## Results

The purpose of physical therapy is to maximize your body's own healing potential through natural means and promote your ability to perform daily, work, and leisure and sports activities through increased strength, flexibility, agility, and movement strategies. It is not possible to predict the results or outcomes of treatment. Sometimes benefits are realized immediately and sometimes it's more gradual over time.

## Informed Consent

By signing below, the patient gives the therapist permission to the evaluation and treatment. It is your right to accept or refuse any treatment offered. There are no guarantees made as to the results that may be obtained from our treatment(s). If you have any questions about your care, be sure to ask the therapist.

It is up to patient/caretaker to inform the therapist/staff about any health problems or allergies patient may have. Patient/caretaker must also tell the therapist/staff about drugs or medications being taken as well as any medical conditions and/or surgeries. Please discuss any questions or problems with the therapist before signing this statement of understanding and consent for care.

## Medical Records Release

By signing below, I authorize and request the disclosure of all protected information for the purpose of review and evaluation to the Sports, Back and Pain Management Clinic. I expressly request that the designated record custodian of all covered entities under HIPAA identified above disclose full and complete protected medical information including the following:

All medical records, meaning every page in my record, including but not limited to: office notes, phase sheets, history and physical, consultation notes, inpatient, outpatient and emergency room treatment, all clinical charts, reports, order sheets, progress notes, nurse's notes, social worker records, clinic records, treatment plans, admission records, discharge summaries, requests for and reports of consultations, documents, test results, and records received by other medical providers.

Any facsimile, copy or photocopy of the authorization shall authorize you to release the records requested herein. This authorization shall be in force and effect until two years from date of execution at which time this authorization expires.

Relationship to Patient

# Important Clinic Policies for a Successful Relationship

We strive to provide you the best personalized care available. To make this possible we adhere to a set of very important guidelines to ensure the highest quality of care for all patients. Please read them carefully, **initial all the boxes**, and indicate your agreement by signing the form at the bottom. ***We look forward to building a successful relationship with you that lasts a lifetime!***

## Late Policy "5 minutes"

Being Late by more than 5 minutes will require you to either reschedule or wait for the next available opening. There are no guarantees since openings due to cancellations are unpredictable. We do not allow appointment overlap because this compromises the care of another patient.

## 24 – Hour Advance Notice Fee

If you wish to change or cancel an appointment we require a minimum **24-hour advance notice**. Anything less will result in a \$25 fee charged to your account. It cost money to make appointments available to you. Whether you attend or not we still accrue the expenses (for staff wages, rent, etc.). We don't charge you the actual cost for that appointment but rather a small fee. We do NOT make money with this charge; it is only to act as a deterrent from making last minute changes. Advance notice allows someone else (who needs it) to reserve it in place of you. Please be courteous and responsible. Thank you.

## Copays are due upon arrival

If you happen to forget your wallet or checkbook we will be able to see you without payment one time. However, if it occurs more than once, we will require a credit card number to be placed in your file for future occurrences.

## No-Shows are Bad

If you fail to show for an appointment without notice, all future appointments will be removed and a \$25 fee assessed to your account. You may re-schedule appointments again on a "first come, first serve basis".

## Cell phones must be turned OFF or silent.

We realize emergencies may arise and thus you may need to carry your cell phone during your treatment session, however, please be courteous & set it to silent mode or turn it off during treatment. Thank you.

## Children requiring supervision are NOT allowed to attend sessions with you.

As our facility does not have child-care services, you may not bring children who require supervision with you to your appointment. If your child does not require supervision and is capable of waiting for you quietly, then you may bring them with you. If any disturbance is caused to other patients or staff members, you may be asked to terminate your session early and attend to your child.

## HIPAA

By initialing this box you confirm that you have received a copy of the Health Insurance Portability and Accounting Act (HIPAA).

I have read & agree to all of the above policies. Signature \_\_\_\_\_ Date \_\_\_\_\_
